

BILLING CODE 6717-01-P

## **DEPARTMENT OF ENERGY**

### **Federal Energy Regulatory Commission**

**[Docket No. CP19-484-000]**

#### **Kinder Morgan Louisiana Pipeline LLC; Notice of Application**

Take notice that on June 28, 2019, Kinder Morgan Louisiana Pipeline LLC (Kinder Morgan), at 1001 Louisiana Street, Houston, Texas 77002, filed an application in the above reference docket an application pursuant to section 7(c) of the Natural Gas Act (NGA) to construct certain facilities. Kinder Morgan proposes to construct, and operate the Acadiana Project (Project). The Project involves the: (1) installation of three (3) new gas fired compressor units totaling 95,700 International Organization for Standardization (ISO) horsepower at Kinder Morgan's existing Compressor Station No. 760 in Acadia Parish, Louisiana, (2) modifications to meter piping at Kinder Morgan's existing Columbia Gulf Transmission Meter Station in Evangeline Parish, Louisiana, and (3) the installation of auxiliary facilities at both locations, all as more fully set forth in the application which is on file with the Commission and open to public inspection. The filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's website web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov) or call toll-free, (866) 208-3676 or TYY, (202) 502-8659.

Any questions concerning this application may be directed to Bruce H. Newsome, Vice President, Kinder Morgan Louisiana Pipeline LLC, 3250 Lacey Road, 7th Floor, Downers Grove, Illinois 60515-7918, by telephone at (630) 725-3070 or by email at [bruce\\_newsome@kindermorgan.com](mailto:bruce_newsome@kindermorgan.com).

Specifically, the Project will allow Kinder Morgan to increase firm north-to-south transportation capacity on its system by 894,000 dekatherms per day (Dth/d) from existing pipeline that interconnects to an existing delivery point with Sabine Pass Liquefaction, LLC (SPL) at SPL's liquefied natural gas export terminal at Sabine Pass in Cameron Parish, Louisiana. The expansion capacity (894,000 Dth/d) will be combined with 145,000 Dth/d of existing system capacity that has been reserved for the Project to enable Kinder Morgan to meet the request of SPL, which has executed a binding precedent agreement with Kinder Morgan for 945,000 Dth/d of transportation capacity for delivery of feedstock gas to the SPL Export Terminal. The estimated cost of the Project is \$143,048,567.

Pursuant to section 157.9 of the Commission's rules (18 CFR 157.9), within 90 days of this Notice, the Commission staff will either: complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for

Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below file with the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit seven copies of filings made in the proceeding with the Commission and must mail a copy to the applicant and to every other party. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that

persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentators will be placed on the Commission's environmental mailing list, and will be notified of any meetings associated with the Commission's environmental review process. Environmental commentators will not be required to serve copies of filed documents on all other parties. However, the non-party commentators will not receive copies of all documents filed by other parties or issued by the Commission and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the “eFiling” link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 7 copies of the protest or intervention to the Federal Energy regulatory Commission, 888 First Street, NE, Washington, DC 20426.

Comment Date: 5:00 pm Eastern Time on August 2, 2019.

Dated: July 12, 2019.

**Nathaniel J. Davis, Sr.,**

*Deputy Secretary.*
